

Home learning for students

A guide to home learning

Stick to a routine.

1. Be ready and online 5 mins before your lesson is due to start
2. Log into the correct Google Classroom for that lesson
3. The teacher will post a welcome message at the start of each lesson and then ask you to respond to it so that they know that you are in the lesson
4. Tasks will be set
5. This is not like a normal lesson so the task will probably span a couple of lessons or more
6. Your teacher will be online during your lesson time to answer your questions - post them in the stream as someone else may benefit from the answer to your question too

Tutor time

1. Tutor time is really important, it will be our way of staying in touch and sending you important messages
2. Log into your tutor Google Classroom 5 mins before the start of tutor time
3. The teacher will post a welcome message at the start of each lesson and the ask you to respond to it so that they know that you are in the lesson
4. During tutor time you may be set a task or your tutor might decide to use the stream or the question function to instigate a conversation.
5. BE PATIENT DURING ONLINE CONVERSATIONS
6. USE CORRECT ENGLISH AT ALL TIMES - THIS IS A WORKING ENVIRONMENT
7. Your tutor will always be online during tutor time if you need them

Top home learning tips

1. Don't rush through your work. Home learning goes at a slower pace than in class and we could be doing this for a very long time
2. Teachers will try to set you interesting tasks to do that you can easily accomplish at home - try to enjoy these tasks
3. Ask for help if you need it
4. Take breaks from learning and do something you enjoy
5. Take breaks for your screen, play outside, read a book, learn a new skill
6. You have lots of freedom now - use it wisely
7. At 15:25 school is over - go and do something else
