

## Independent Learning Task

Subject	Science
ILP #2	Fascinating elements!
Week set:	Week 11
Duration:	1 – 2 hours
Hand in:	Week 13
Instructions:	<p>Your task is to research an element from the Periodic table and prepare a group presentation that will last no longer than 2 minutes.</p> <p>Your presentation can be supported by a Powerpoint, poster or other visual aids.</p> <p>Your presentation should include:</p> <ul style="list-style-type: none"> <li>• A description of the element</li> <li>• When and how it was discovered</li> <li>• What makes this element interesting</li> <li>• How the element is used</li> </ul>
Skills:	<ul style="list-style-type: none"> <li>• Learning how to work in a group.</li> <li>• Learning how to research.</li> <li>• Learning how to create a presentation.</li> <li>• Improving your public speaking.</li> </ul>
Marking schema:	<p>Your peers will assess you based on the following:</p> <ul style="list-style-type: none"> <li>• Did the presenters speak clearly, making eye contact with their audience?</li> <li>• Did the presenters make the topic engaging?</li> <li>• Did the presentation include all the essential criteria?</li> </ul>
Additional guidance or help:	<p>The following website will take you to an interactive Periodic table which you can use to choose the element your presentation will be based on</p> <p><a href="https://rsc.org/periodic-table">https://rsc.org/periodic-table</a></p>
