

Independent Learning Task

Subject	Design and Technology – Product Design Module
ILP #1	Research and Revision
Week set:	Week 5 (week commencing 28 th September 2026)
Duration:	1 Week
Hand in:	Week 6 (week commencing 5 th October 2026)
Instructions:	Design Movements Research Task Create an annotated image board that you can use for design inspiration. Use fonts, colours and graphics that are linked to the Design movement of your choice. Make sure you include: • An introduction about the design movement. • At least 6 images of iconic designs with their designers. • Interesting facts about the design movement. Complete your work on the template file provided with the Independent Learning Task assignment in MS Teams.
Skills:	This task will help you develop your independent research skills and build your technical knowledge. These skills are important when investigating design opportunities and preparing for written assessments. The task will also help you develop your digital literacy by encouraging you to record your research through photography and present your findings in a digital portfolio.
Marking schema:	Your teacher will be looking for evidence that you have carried out research and presented your findings clearly using digital technology. You will be awarded with 2 Praise Points for completing the independent learning task to a good standard.
Additional guidance or help:	Online Resource - Focus eLearning by Focus Educational Software Ltd. Your teacher will share an example of each outcome with you.
